**Subject:** results for 10/565829

Ex Cho,  
the results for the structure search you requested on 10/565829 are now available on SCORE via the link below.

<http://es/ScoreAccessWeb/GetItems.action?AppId=10565829&ItemType=9&VersionNo=3>

Click on the "Download" button, then click "Open" to view the results in Word.

pp. 1-29 are the inventor search

pp. 30-84 are the reaction search

pp. 85-92 are the search history

Please note that although it is possible to *draw* a stereo structure in CASReact, stereochemistry is not *searchable*. Searches retrieve flat, 'R', and 'S' compounds regardless of what is drawn.

Please let me know if you have any questions.
